

**DOE READING ROOM
DOCUMENT TO BE RELEASED**

T070650

1. Location of Reading Room: Idaho Operations Public Reading Room 1776 Science Center Dr. University Place Idaho Falls, ID 83403	2. Expected Release Date: May 15, 1995
---	---

3. Document Type:

- ☒ Letter
☐ Memorandum
☐ Report
☐ Publication
☐ Other (Specify)

a. If letter or memo:

To: R. J. Beer, Director Operational Safety Div.

From: C. W. Bills, Acting Director Health
and Services Laboratory

Subject: Releases Planned for CERT Field Release
Project

b. If report:

Title:

4. Document Date:

June 17, 1976

c. If publication:

Name:

Volume:

Issue:

5. Summary (2-3 lines indicating the major subject(s) of the document):

Controlled release of radionuclide for the CERT project

6. Name and telephone number of person completing form: Anjan K. Majumder (208) 525-0206	7. Organization: Lockheed Idaho Technologies Co.	8. Date: May, 1995

RELEASES PLANNED FOR CERT FIELD RELEASE PROJECT

Two releases of 0.5 Ci of Ce-141 and 0.25 Ci of Cs-134 are planned during 1976 as part of the CERT field release project. The estimated release times are in July and October. The same concentrations of the above radionuclides were released in June 1975 following the approval of release procedures by the Operational Safety Division (refer to a letter dated May 8, 1975 from R. J. Beers to D. I. Walker). The 1976 release procedures are identical to the 1975 procedures. Paul Ruhter and Kathy Smith of the Operational Safety Division have been contacted about the proposed 1976 releases and will be kept informed as to the exact release dates. Enclosed for your information are copies of the release procedures and the Operational Safety approval from May 1975.
